

## Chapter 4: Restructuring the Past: Remembering Genesis in the Book of Jubilees

---

In 1844 Heinrich Ewald published a description of an Ethiopian manuscript which had been preserved in Classical Ethiopic (Geʿez) under the title መጽሐፈ ክፋሌ [mashafa kufālē].<sup>1</sup>

Because the name followed the common convention using a work's first few (key) words as its title (in this case, ዝንቱ ነባሪ ክፋሌ [zentu nabara kufālē]), Ewald suggested that this manuscript may have been a copy of the work known from antiquity as both τὰ Ἰωβηλαῖα, “the Jubilee,” and Λεπτὴ Γένεσις, the “Little Genesis.”<sup>2</sup> Although the work had been in continuous use within Ethiopian Christianity since antiquity, European scholarship only knew of the work through secondary references in a few classical sources.<sup>3</sup>

The work was published and supplemented by additional manuscripts by August

Dillmann in 1859<sup>4</sup> and R. H. Charles in 1895.<sup>5</sup> More recently, VanderKam's 1989 edition utilized twenty-seven copies of the text<sup>6</sup> and since its publication over twenty more copies have been catalogued and imaged.<sup>7</sup>

The Ethiopic text remains to this day the only tradition to preserve Jubilees in its entirety. Save for the rediscovery of the text itself, the most significant find for the study of Jubilees was the discovery of several Hebrew fragments of the work among the Dead Sea Scrolls which attest to the work's antiquity and likely original language of composition. Although the Hebrew and Ethiopic versions are—to the degree that we can tell—very close to one another, the Ethiopic text appears to be a granddaughter translation of the Hebrew through a Greek daughter translation, though no such text has been found.<sup>8</sup> This fact was convincingly demonstrated by Dillmann who observed several Greek forms preserved as transliterations in the Ethiopic text.<sup>9</sup> By the end of the 19th century, partial copies of Jubilees had been uncovered

in Latin translation which similarly appear to be daughter translations of the Greek text.

Finally, although no manuscript evidence has been found, Jubilees scholars posit that a Syriac translation of Jubilees was made in antiquity based on what appeared to be a number of Syriac citations of Jubilees which lacked any apparent influence from Greek.<sup>10</sup>
