The work was published and supplemented by additional manuscripts by August Dillmann in 1859<sup>4</sup> and R. H. Charles in 1895.<sup>5</sup> More recently, VanderKam's 1989 edition utilized twenty-seven copies of the text<sup>6</sup> and since its publication over twenty more copies have been cataloged and imaged.<sup>7</sup>

Save for the rediscovery of the text itself, the most significant find for the study of Jubilees was the discovery of several Hebrew fragments of the work among the Dead Sea Scrolls which attest to the work's antiquity and likely original language of composition.

Although the Hebrew and Ethiopic versions are—to the degree that we can tell—very close to one another, the Ethiopic text appears to be a granddaughter translation of the Hebrew through a Greek daughter translation, though no such text has been found. This fact was convincingly demonstrated by Dillmann who observed several Greek forms preserved as transliterations in the Ethiopic text. By the end of the 19th century, partial copies of Jubilees had been uncovered and Anne Kreps, From Jewish Apocrypha to Christian Tradition, CH 87.2 (2018): 345–70.

in Latin translation which similarly appear to be daughter translations of the Greek text. Finally, although no manuscript evidence has been found, Jubilees scholars posit that a Syriac translation of Jubilees was made in antiquity based on what appeared to be a number of Syriac citations of Jubilees which lacked any apparent influence from Greek. Despite all of these finds, however, the Ethiopic text remains the only tradition to preserve Jubilees in its entirety. Thus, in my treatment of Jubilees I will be relying primarily on the Ethiopic text and will be supplementing from the Hebrew where available.

#### 4.1.2 Content and Character

The book of Jubilees offers a rewriting of the book of Genesis and the first part of Exodus (Gen 1–Exod 12). The work is presented as a revelation from Yahweh given to Moses atop Mt. Sinai, framed by a brief prologue and epilogue.<sup>11</sup> The prologue gives a short description of the work as an account concerned with the division of time into units of years, weeks, and jubilees:

(Prologue) These are the words<sup>12</sup> of the division of the days for the law and for the testimony for the event[s] of the years; for their weeks, for their Jubilees in all the years of the world just as he spoke (them) to Moses on Mount Sinai when he went up to receive the tablets of stone—the law and the commandment—at the command of God, as he had said to him that he should ascend to the top of the mountain.

Following this prologue, the setting of the story is established as the during the "first year of the Israelites' exodus from Egypt, in the third month, on the sixteenth of the month" when Yahweh called Moses atop Mt. Sinai.

The bulk of the work (Jubilees 2:1–50:13) is dedicated to the recounting of Jewish history, following the basic narrative provided by Gen 1–Exod 12, with special concern for halakhic matters and the division of time according to a 364 day calendrical system. The particulars of the revelation are mediated by the "angel of the presence" (Eth. 🌇 🎢 18 [mal'aka gaṣṣ]) who dictates its contents to Moses, the fastidious scribe. The treatment of

Moses as a scribe places him within a chain of tradition—along with Enoch and Noah—which emphasizes writing and written works as essential sources of tradition and revelation. The work closes with a terse statement declaring "Here the account of the division of time is ended" (Jubilees 50:13; Eth. 十4.8 中 : 1710 : 日本 : 中中 : 1710 : 日本 : 1710

### 4.1.3 As RwB

### 4.1.4 Thesis on Memory

### 4.2 RESTRUCTURING THE PAST

One of the most nable features of the Book of Jubilees is its preoccupation with the correct division of time—both with respect to a 364 day year as well as longer units encompassing multiple years. This concern with the proper division of time is reflected throughout the work and provides the central organizing principle for the book's rewriting of Gen 1–Exod 12.

The author of Jubilees makes it very clear that the proper division of time through a 364 day year is an essential practice for the correct observation of religious feasts and other holidays throughout the year. The pattern and siginifcance of this 364 day cycle is explained to Moses after the Angel of the Presence retells the events of the Flood. The angel explains the division of the year into four seasons, each begining with a memorial day (Jub 6:23) and consisting of thirteen-weeks. The sysyem as a whole yeilds a fifty-two week year (Jub. 6:29) and is presented as "inscribed and ordained on the tablets of heaven" (6:31; Eth. †\$C0 :

The 364 day year is considered "complete" (Eth. []) by the Angel such that proper observence maintains synchrony year-over-year. In other words, adding or subtracting days from this calendar renders a "floating" vis-à-vis the absolute reference of the heavenly tablets. By comparison, the Angel of the Presence warns agains the use of a lunar calendar because the lunar year is too short. Jubilees 6:36–37 reads:

(6:36) wa-yekawwenu ?ella yāstaḥayyeṣu warḥa ba-ḥuyāṣē warḥ ʕesma temāsen ye?eti gizēyātā wateqadum ?emʕāmatāt laʕāmat ʕašur ʕelata (37) ba-ʔenta-ze yemaṣeʔ ʕāmatāta lomu ?enza yāmāsenu wa-yegabru ʕelata semʕ menent wa-ʕelata rekʷe sta ba-ʕāla wa-kʷe llu yedēmer wa-māwāʕelā qedusāta rekusā wa-ʕelata rekwe sta laʕlat qedust ʕesma yeseḥetu ʔawrāḥa wa-sanbatāta wa-beʕālāta wa-ʔiyobēla

(6:36) (37)

Although 364 days appraoches the actual period of Earth's orbit around the sun (approx. 365.24 days), the earlier characterizations of the Jublilees calendar as "solar" are generally not accepted by mondern scholars.
